NUMERICAL DIRECTORY

ITS PRACTICAL USE IS TO GIVE

Information as to street descriptions and their location on the map.

Information as to the location by number of intersecting streets and their relation to other numbers.

Information as to the name of every householder at any given street number.

Information as to the name of every place of business and its nature at any given street number.

Information as to the location of telephones [illegible] by street number.

Information as to property owners.

Information as to the character of any street or district.

Information as to the number of families living at any number and who they are.

Information as to the correct spelling of names when addresses are known.

Information as to sections capable of producing the greatest amount of business by personal solicitation or through mail.

Finally—

It takes the "[illegible]" out of your neighborhood and adds another link to your chain of friendliness

THE PRICE & LEE CO.

EWARK NUMERICAL DIRECTORY

EXPLANATORY NOTES

...ets are arranged alphabetically with their descriptions, each description followed by a numerical arrangement of houses, ... aces of business and street intersections. Arranged by rotation where no numbers have been assigned.)
...eviation "r" between the street number and the name signifies "rear."
... "vacant" after a number signifies that the house, office or store at that number was vacant when canvass was ...

...tes telephone at this number.
...odd)" after street description indicates odd numbers on right side of street.
... ⊕ following a householder's name indicates that information has been secured during the canvass that the house is ... some member of the family, but as the publishers cannot and do not guarantee the correctness of the information ... ver the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publishers ...ish further information than that shown.
